

Tomas Maly

Senior Mobile and Full Stack Developer

Asheville, NC (Eastern) | tmaly1980@gmail.com | [tmaly1980.github.io](https://github.com/tmaly1980)

Senior mobile developer with 8+ years building production iOS and cross-platform mobile applications, including 2+ years of Swift/SwiftUI experience, technical leadership, architecture, offline-first workflows, CI/CD, app-store releases, and production support. Brings 25+ years of professional web development experience, providing additional full-stack breadth for end-to-end product development.

CORE EXPERTISE

WEB / MOBILE:	React Native, Expo, React, Next.js, TypeScript, Nest.js API, Node.js, REST APIs, Tailwind, Swift, SwiftUI, NativeWind
DATABASE DESIGN:	Supabase/PostgreSQL, MySQL, SQL Server, Firebase, SQLite, TypeORM, schema design, realtime data, Auth/RLS
ARCHITECTURE:	Multi-tenant architecture , offline-first architecture, modular application design, MVVM, MVC
DELIVERY & QUALITY:	CI/CD, GitHub Actions, CircleCI, Fastlane, Jest regression testing, ESLint, React DevTools, Chrome DevTools, App Store & Google Play releases, Crashlytics, Bugsnag, Datadog
TEAM & PROCESS:	End-to-end product development, product/design/QA collaboration, Agile/Scrum, daily standups, release planning, pair programming, junior developer mentoring
PLATFORMS:	Vercel, Supabase, Firebase, AWS S3, Lambda, Cognito, SNS, PostHog
INTEGRATIONS:	Stripe/Stripe Connect, Google Maps, push notifications, Vision Camera/barcode scanning, OpenAI Vision

SELECTED HIGHLIGHTS

- Led distributed development teams of up to 5 developers across Agile/Scrum environments, partnering with product, design, QA, and stakeholders.
- Built and supported **multi-tenant and white-label platforms serving hundreds of client organizations** across booking, scheduling, billing, operations, and mobile workflows.
- Owned end-to-end web and mobile delivery spanning product design, database architecture, implementation, testing, app-store distribution, and production support.
- Architected CI/CD and release automation across **400 client organizations** using Fastlane, CircleCI, and GitHub Actions.
- Established regression-testing practices requiring a confirmed failing automated test before QA-reported bug fixes; diagnosed production issues with React DevTools, Chrome DevTools, Crashlytics, Bugsnag, and Datadog.

Sept 2025-Present: Self-Employed, Freelance Senior Mobile and Web Development

Independent end-to-end product development for web and mobile applications, covering product design, database architecture, frontend/backend implementation, integrations, testing, deployment, app-store distribution, and production support.

MyIndiePro - Founder, Senior Web/Mobile Developer

Next.js · React · TypeScript · Nest.js API · Multi-tenant SaaS · Supabase/PostgreSQL · Stripe · PostHog · Tailwind · Vercel · Zod · OpenStreetMap · Chrome DevTools

- Own product design, development, testing, and distribution for multi-tenant booking and operations software; designed the Supabase/PostgreSQL schema, realtime data model, Auth/RLS, estimates, scheduling, messaging, job management, verified pricing/time, reviews, and provider administration.

APS Environmental Services - Senior Web/Mobile Developer

React Native · Expo · Next.js · TypeScript · Supabase/PostgreSQL · NativeWind/Tailwind · Vercel · Zod · Push Notifications · Chrome DevTools

- Performed end-to-end mobile/web development, database design, testing, deployment, and app distribution; designed Supabase schema, realtime data flows, Auth/RLS, service requests, photo/document sharing, scheduling, job-status updates, notifications, and report delivery.

Meti Taxi - Senior Full-Stack / Mobile Developer

React Native · TypeScript · Node.js · PostgreSQL · Realtime · OpenStreetMap · Valhalla · Geospatial Caching

- Engineered realtime taxi-dispatch infrastructure with complex driver matching and assignment logic using proximity, availability, aliveness, and trip constraints; propagated driver, ride, and assignment state updates across the system.
- Built Valhalla-based routing/ETA infrastructure, aggressive caching for popular destinations and repeated route calculations, driver aliveness verification, and geospatial heat-map generation to reduce external API dependence and support dispatch decisions.

LockAtlas + LockAtlas Technician - Senior Mobile Developer

React Native · Expo · TypeScript · Supabase/PostgreSQL · Supabase Edge Functions · TanStack Query (React Query) · Stripe Connect · OpenAI Vision · Zod · Tailwind · React DevTools

- Took an AI-assisted prototype to production, designing the Supabase schema, realtime flows, Auth/RLS, and mobile data layer; integrated live order updates, AI photo cost estimation, radius-based job matching, and app-store distribution.
- Built Supabase Edge Functions for Stripe customer payments and Stripe Connect technician instant and weekly payouts.

FitRoutine / GreenZone - Senior Mobile/Web Developer

React Native · Expo · Next.js · Supabase/PostgreSQL · Realtime · Auth/RLS

- Implemented personalized exercise, meal, and habit planning, subscriptions, and guided meditations; designed the Supabase schema/realtime model with Auth/RLS and managed multiple App Store releases.
- Added a web-based admin portal for managing custom user content and settings.

Players Pal - Senior Mobile Developer

React Native · REST APIs

- Added rewards and directory functionality to an existing casino rewards application, including coupons and restaurant listings; managed multiple App Store releases.

2018-2025: Xplor Technologies, Senior/Lead Mobile Developer

Cross-functional Agile/Scrum work with product, design, development, and QA, including daily standups, release planning, pair programming, production troubleshooting, CI/CD, and leadership of distributed teams of up to 5 developers.

Spot Delivery Connect Mobile - Senior/Lead Mobile Developer

React Native · Expo · MVVM · REST APIs · MobX · SQLite · SQL Server · TypeORM · React Navigation · Google Maps · Vision Camera · Jest · ESLint · React DevTools

- Led a team of 4 developers migrating a legacy Xamarin pickup-and-delivery platform to React Native using an offline-first architecture; clients included Tide Cleaners.
- Planned deliverables with product and stakeholders, worked with junior developers and QA to meet releases, reverse engineered undocumented legacy behavior, and required failing Jest regression tests before bug fixes; implemented strict ESLint rules for modularity and maintainability.

TrueCoach - Senior/Lead Mobile Developer

Swift · SwiftUI · MVVM · REST APIs · Firebase · Stripe · ConfigCat · Bugsnag

- Managed 4 developers through several major releases; implemented wearable-data integration and coach-client chat, used Bugsnag for production diagnostics, and required a reproducible failing automated test before QA-reported bug fixes. App has 33K+ App Store ratings.

MarianaTek - Mid-Level Mobile Developer

Swift · SwiftUI · MVVM · REST APIs · Multi-tenant SaaS · Datadog

- Worked with 5 developers on a multi-tenant fitness studio booking/billing/scheduling platform serving ~400 clients; pair programmed, used Datadog for production diagnostics, and collaborated with design for pixel-precise UI.

ZingFit - Mobile Developer

React Native · REST APIs · Multi-tenant / White-label · Fastlane · CI/CD · AWS S3 · AWS Lambda · AWS Cognito · AWS SNS · Crashlytics

- Architected CI/CD for a multi-tenant, white-label fitness studio app serving ~200 clients and owned iOS/Android releases; used Crashlytics for production issues and troubleshot push notifications end to end across app configuration, AWS SNS, and release environments.

2018-2022: Upwork.com, Mobile Developer

Cross-platform mobile development focused on multimedia, payment processing, and multi-vendor branding.

Pocket Pushkah - Mobile Developer

React Native · REST APIs

- Developed and maintained a white-labeled faith-based charity app, cloned and rebranded for 7-8 organizations.

Fluid Running - Mobile Developer

React Native · RSS Feeds

- Redesigned the interface for an aquatic fitness media player app; added player functionality and integration with device media controls.

Rosen Institute - Mobile Developer

React Native · RSS Feeds

- Enhanced audio player UX and added an internal blog for a legal consulting firm.

2000-2017: Various Employers, Web Developer

Full-stack web development across fintech, e-commerce, agritech, social media, nonprofit, and regional business platforms, spanning database design, responsive UI, payments, data import/export, deployment, optimization, and production support.

MyTown USA - Mid-Level Web Developer

PHP · Laravel · MySQL · MVC · Chrome DevTools

- Developed a local events and coupons platform for regional businesses, including scalable city-based content and business listings.

Central Valley Software / Grower Analytics - Mid-Level Web Developer

PHP · Laravel · CakePHP · SQL Server · Microsoft Azure · Vue.js · Bootstrap · MVC

- Developed an agricultural analytics platform helping growers analyze crop yields, historical trends, and comparisons; optimized SQL Server data access in a Microsoft Azure environment.
- Built XML, Excel/CSV, and JSON import/export workflows, responsive filtering and data visualization, and helped migrate legacy CakePHP functionality into Laravel.

Hopeful Press - Web Developer

PHP · CakePHP · MySQL · jQuery · Bootstrap · Stripe · PayPal · LESS · SVG · Git

- Built an adoption and fundraising portal for animal rescue organizations, including a custom CMS, animal listings, volunteer/adoption application workflows, email notifications, and responsive administration tools.
- Implemented website-customization features plus Stripe/PayPal payment and donation processing, and handled remote Git-based deployment.

Harmony Designs - Junior Web Developer

PHP · MySQL · MVC · jQuery · CSS3 · SVG · ImageMagick · Authorize.net · Chrome DevTools

- Built and maintained a custom personalized-gifts ordering system with a live design-as-you-go product preview, integrating Authorize.net payments and dynamic image generation.
- Developed cross-browser ordering interfaces and worked on SEO, A/B testing, conversion optimization, shipping workflows, and web analytics.

Independent Web Development Projects - Independent Web Developer

PHP · MySQL · Full-Stack Web Development

- Built independent applications including a fashion-oriented social media platform, a used-college-textbook ordering/exchange system, and telecommunications monitoring software for infrastructure troubleshooting.

Innovex Mortgage - Junior Web Developer

PHP · MySQL · Linux · MVC

- Developed debt-analysis software used by loan agents to model debt consolidation and cash-out refinancing for homeowners, including financial calculations and user-facing workflows.
- Worked within a team of 4 developers and supported the PHP/MySQL application in a Linux environment.

EDUCATION

1998 - 2002: San Jose State University

Bachelor of Science, Computer Science
